## Disinformation, Media Freedom and Journalism

**When:** 23rd September 2022  
**Time:** 9AM – 1PM  
**Location:** TBD, Prague 1, City Center

For 21st Century journalists, questions arise about the dual role of technology, data, lifelong education, and rights-based approaches. This session will focus on redefining quality, trustworthy journalism and trust in the media. The media and digital platforms can act as instruments of significant multidimensional harm to democracy. Our new role is to remedy their impact. Through the support of tech companies' work alongside existing EU projects, our panel discussion will provide a space to search for new business models and governance strategies, and to define the line between platforms and the media.
